### New Jersey Electrical Contractors Will be There – Will You?

On December 5, 2017 the New Jersey Independent Electrical Contractors Association (NJ-IEC) is hosting an event *Learn How to Become a Cloud Based Electrical Contractor – presented by simPRO*. The event will be at Ariana's Grand 800 Rahway Avenue Woodbridge NJ.

*simPRO* will show licensed New Jersey electrical contractors tools they can use to make them more productive and profitable. In addition to the technology presentation there will be a two hour NJ CEU course for electrical contractors as well as a hot buffet lunch and prizes, including a 60" TV.

Our event is a perfect opportunity for your company to display its products or services to licensed New Jersey electrical contractors.

The cost is \$500 for a table top display or \$1,500 to sponsor. [Click here to register.](#)

If you have any questions don't hesitate to contact Executive Director Eric DeGesero at [executivedirector@nj-iec.org](mailto:executivedirector@nj-iec.org) or 973-467-0027.
